Title:

GOGGLES WITH PLIABLE AND RESILIENT SEALING PAD

PETITION FOR REMAND

Seattle, Washington 98101

October 15, 1998

TO CHIEF JUDGE, BOARD OF PATENT APPEALS AND INTERFERENCES:

Applicants respectfully request that this application be remanded to the Examiner for the purpose of entry of an Amendment canceling Claims 13, 14, 48 and 49 from the application presently on appeal. This petition is based upon the following facts:

- 1. On March 26, 1997, the primary Examiner Peter Nerbun entered a Final Rejection of the claims in the pending application. See Paper No. 15 in Application No. 08/794,154. This Office Action also indicated that Claims 13, 14, 48 and 49 were objected to as being dependent upon a rejected base claim, but would be allowed if rewritten in independent form including all the limitations of the base claim and any of the intervening claim.
- 2. On June 24, 1997, applicants filed an appeal from the Final Rejection in this application.
- On December 30, 1997, the Examiner filed his Answer in this appeal. See Paper No. 20 in application No. 08/794,154. Applicants filed a Reply Brief on March 2, 1998. See Paper No. 24. On September 25, 1998, this application was remanded to the Examiner for "a proper response to Reply Brief." See Paper No. 25.

-1-

- 4. In the meantime, applicants filed a new application (Serial No. 09/069,706) on April 29, 1998. This new application included four new claims which restated Claims 13, 14, 48, and 49 from Application No. 08/794,154 in independent form including all of the limitations of rejected base claim and any intervening claim, as suggested by the Examiner in his March 24, 1997 Office Action.
- 5. On July 16, 1998, the Examiner mailed an Office Action in Application No. 09/069,706, provisionally rejecting the four new claims under 35 U.S.C. § 101 as claiming the same invention as Claims 13, 14, 48 and 49 of the co-pending Application No. 08/794,154. See Exhibit A hereto.
- 6. Applicants respectfully request that Application Serial No. 08/794, 154 be remanded to the Examiner for purpose of entry of an amendment canceling Claims 13, 14, 48 and 49 from that application. See Exhibit B hereto.

Additional Fee Charges or Credit for Overpayment

The Commissioner is hereby authorized to charge any fees under 37 C.F.R. §§ 1.16, 1.17 and 1.18 which may be required during the entire pendency of the application, or credit any overpayment, to Deposit Account No. 03-1740. This authorization also hereby includes a request for any extensions of time of the appropriate length required upon the filing of any reply during the entire prosecution of this application. A copy of this sheet is enclosed.

Respectfully submitted,

Claims 11, 12, 13, and 14 of this application conflict with claims 13, 14, 48, and 49 of Application No. 08/794,154. 37 CFR 1.78(b) provides that when two or more applications filed by the same applicant contain conflicting claims, elimination of such claims from all but one application may be required in the absence of good and sufficient reason for their retention during pendency in more than one application. Applicant is required to either cancel the conflicting claims from all but one application or maintain a clear line of demarcation between the applications. See MPEP § 822.

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See Miller v. Eagle Mfg. Co., 151 U.S. 186 (1894); In re Ockert, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 11, 12, 13, and 14 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 13, 14, 48, and 49 of copending Application No. 08/794,154.

This is a <u>provisional</u> double patenting rejection since the conflicting claims have not in fact been patented.

GOGGLES WITH PLIABLE AND RESILIENT SEALING PAD

RESPONSE TO AN OFFICE ACTION

Seattle, Washington 98101

October 15, 1998

TO THE ASSISTANT COMMISSIONER FOR PATENTS:

The Examiner's Office Action mailed July 16, 1998 provisionally rejected Claims 11-14 under 35 U.S.C. § 101 as claiming the same invention as that of Claims 13, 14, 48 and 49 of Application No. 08/794,154, now on appeal. Applicants respectfully thank the Examiner for the courtesy extended in a telephone interview Monday, October 12, 1998, regarding an appropriate response to the Office Action.

Pursuant to the telephone interview on October 12, applicants have filed the attached petition requesting the Board of Patent Appeals and Interferences to remand the co-pending Application No. 08/794.154 to the Examiner for the purpose of entering an amendment canceling Claims 13, 14, 48 and 49 from that application. Applicants further request the Examiner suspend prosecution of the present application, pending the Board's ruling on the above-described petition. Applicants finally request that upon remand, the Examiner enter an Examiner's amendment in Application No. 08/794.154 canceling Claims 13, 14, 48 and 49, and applicants hereby consent to the entry of such Examiner's amendment.

Again, applicants thank the Examiner for the courtesy extended in resolving this matter.
